

**ANEPRO 11 NS GREASE****CALCIUM BASED GREASE****DESCRIPTION**

Veedol Anepro 11 NS Grease is a calcium based extreme pressure type grease having NLGI 1 consistency.

**APPLICATIONS**

Recommended for roll neck bearings in rolling mills where they have to resist washing action of water and also where lubricant has to function under severe shock load condition. Also suitable for mill roll bearings in sugar mills.

**FEATURES/BENEFITS**

- Exceptionally high load carrying capacity, water resistance and are non-corrosive to iron, steel, copper and their alloys.

**CHARACTERISTICS**

Test Parameter	Test Method	Typical Value
Texture	–	Smooth & Buttery
NLGI Consistency	–	1
Soap Type	–	Calcium
Worked Penetration, 60st @25°C	ASTM D 217	315
Drop Point, °C	ASTM D 2265	95
