

Alicom 20 SPL

Lithium Complex Grease

TECHNICAL DATA SHEET

Description:

Veedol Alicom 20 SPL is Premium lithium complex grease formulated with latest technology additives and highly refined base stocks.

Veedol Alicom 20 SPL grease is suitable for bearings operating at high temperature and under load.

Features/Benefits:

- Possesses excellent water tolerance, mechanical stability and high temperature performance.
- Excellent load carrying performance.
- High drop point makes it suitable for applications where conventional lithium soap based greases are not suitable.
- Excellent anti-oxidant, anti-rust and anti-wear properties.
- Long operational life at high temperatures.

Application:

Veedol Alicom 20 SPL grease is recommended for use in heavy duty bearings found in applications like,

- Roller conveyors
- Continuous casting
- Quarries
- Automotive Wheel bearings
- Vibrating sieves
- Breakers

Typical Properties:

Test Parameters	Test Method	Typical Values
Texture	--	Smooth
Color	--	Red
NLGI Consistency	--	2
Soap type	--	Lithium Complex
Worked Penetration, 60st @25°C	ASTM D 217	282
Drop Point, °C	ASTM D 2265	260

Properties mentioned above are typical only and minor variations which do not affect the product performances, are to be expected in normal manufacturing.
