

ALICOM 30**LITHIUM COMPLEX GREASE****DESCRIPTION**

Veedol Alicom 30 is Premium lithium complex grease manufactured with highly refined, high viscosity index base oil.

Veedol Alicom 30 grease is of NLGI 3 consistency.

APPLICATIONS

Recommended for automotive wheel bearing applications especially where trouble free performance and long life are the main consideration.

Recommended for applications where high drop point grease is desired.

Also suitable for application by the centralized grease system

FEATURES/BENEFITS

- Possesses high water tolerance, mechanical stability and high temperature performance.
- High drop point makes it suitable for applications where conventional lithium soap based greases are not suitable.
- Excellent anti-oxidant, anti-rust and anti-wear properties.
- Long operational life at high temperatures.

CHARACTERISTICS

Test Parameter	Test Method	Typical Value
Colour	Visual	Yellow
Texture	–	Smooth
NLGI Consistency	–	3
Worked Penetration, 60st @25°C	ASTM D 217	245
Drop Point, °C	ASTM D 2265	240
Free Alkalinity (as LiOH) % by mass	ASTM D 128	0.020
Oil Separation, % wt	IP 121	0.98
Wear Scar Diameter, mm	ASTM D 2266	0.56
Weld Load, kg	ASTM D 2596	250
