Resolution No. 1

The Company is presently having a Technical Collaboration Agreement with JX Nippon Oil & Energy Corporation, Japan (JXNOE), for lubricants manufactured and marketed under licence from JXNOE (hereinafter referred to as "licenced products"), which are marketed under the Brand Name "ENEOS". The aforesaid agreement was initially entered in 1993 with the then Mitsubishi Oil Co., Ltd, presently rechristened as JXNOE, after its merger with Nippon Oil Corporation, Japan. This Agreement was subsequently renewed on 3rd October, 2013 for a period of one year with an option for renewal for another year, with effect from 27th October, 2013.

The business generated from the licenced products in the financial year 1st April 2012 – 31st March 2013, was as under:

- | | |
|---|------------------|
| 1. a. Turnover achieved | - Rs. 277 crores |
| b. % of total turnover of the Company | - 25.6% |
| 2. a. Sales Volume achieved | - 16513 kl |
| b. % of total sales volume of the Company | - 23.60% |

In view of the expanding lubricants market in India and consolidation of Japanese automobile manufacturers, JXNOE had expressed their intention to establish a joint venture along with Tide Water Oil Co. The Board of Directors vide their Resolution No.33 dated 29th January, 2014, decided to enter into a Memorandum of Understanding with JXNOE and as such on 7th February, 2014, the same had been entered into, whereunder, it was resolved to form a Joint Venture Company in India for carrying out the business of licenced products. In terms of such understanding the existing business under the collaboration agreement would stand transferred to the proposed Joint Venture Company. The Company's contribution towards the joint venture will be in the form of business know-how in India (including Indian laws, tax system in India, business custom in India and Indian Corporate Management such as accounting, finance and administration), information in relation to existing players and delivery companies in the lubricating products market, manufacturing capacity and capability, distribution infrastructure & logistics and market information regarding lubricating products in India. The contribution of JXNOE will be in the form of providing state of the art technology of lubricating products, facilitating relations with Japanese automotive manufacturers and providing information to develop business, advertising and sales promotion support, providing all sales assistance (including marketing, promotion and market research) and technical support to customers (including product development, performance test and evaluation). The joint venture will be on 50 : 50 basis with equal equity participation and proportionate profit sharing.

Additionally, it is also envisaged that in order to carry out the business of the Company in a further economical and profitable manner, it is felt desirable to transfer the business segment relating to 'ENEOS' range of products to such Joint Venture Company arising out of sale, transfer, assignment, lease or otherwise disposal of the whole or substantially the whole of the undertaking in India, at a consideration of Rs.108 Crores, which has been arrived at as per valuation done by a leading accounting firm appointed by the Company.

Since the aforesaid arrangements will invoke the provisions as contained under Section 180(1)(a) of the Companies Act, 2013, therefore, it is necessary for the members to pass a Special Resolution under the said Section before entering into any arrangement as stated hereinabove.

The Board of Directors considered the proposed Special Resolution in the interest of the Company and recommended the same for your approval through Postal Ballot.
