Item No. 8

The Company is planning to approach various banks, financial institutions, etc. for obtaining financial assistance not exceeding Rs.1400 Crores (Rupees One Thousand and Four Hundred Crores Only) which may be required for exploring possibilities of new business verticals having synergy with its existing strength which are envisaged to provide profitable returns in future.

As a security for such financial arrangement, the Company would be required to mortgage / charge the movable and / or immovable properties of the Company, whether present or future.

Section 180(1)(a) of the Companies Act, 2013 (Act) provides, inter alia that the Board of Directors of a Public Company shall not without the consent of the shareholders in the General Meeting by way of a Special Resolution, sell, lease or otherwise dispose of the whole or substantially the whole of the undertaking of the Company.

Since mortgaging / charging of the movable or immovable properties as aforesaid in favour of the financial institutions, banks, etc. can be considered to be disposal of the properties of the Company, it is necessary for the members to pass a Special Resolution under Section 180(1)(a) of the Act before creation of the said mortgage / charge on the movable and immovable properties.

Though the Company has already obtained sanction earlier under Section 293(1)(a) of the Companies Act, 1956, in this regard, vide postal ballot resolution dated 2nd March, 2011, however, with the promulgation of the Act and issue of General Circular no. 04/2014 by the Ministry of Corporate Affairs, Government of India the sanction of the shareholders is sought afresh.

The Company is presently exploring possibilities of new business verticals having synergy with its existing strength, which are envisaged to provide profitable returns in future. Since implementation of such probabilities would require increased infusion of funds which may be financed from various financial institutions, banks, etc., it is proposed to increase the maximum borrowing limits as permissible under Section 180(1)(c) of the Companies Act, 2013 (Act).

Since the maximum borrowing limit permissible under Section 180(1)(c) of the Act is restricted to the aggregate of the paid-up share capital of the Company and its free reserve therefore, sanction of the shareholders is sought to permit the Board of Directors (Board) to borrow money upto Rs.1400 Crores (Rupees One Thousand and Four Hundred Crores Only) which is in excess of the limit as prescribed under the said section.

Such sanction would require approval by the members by passing a Special Resolution in terms of the provisions of Section 180(1)(c) of the Act.

Though the Company has already obtained sanction earlier under Section 293(1)(d) of the Companies Act, 1956, in this regard, vide postal ballot resolution dated 2nd March, 2011, however, with the promulgation of the Act and issue of General Circular no. 04/2014 by the Ministry of Corporate Affairs, Government of India the sanction of the shareholders is sought afresh.

PERFORMANCE

Your Company has completed another year of commendable performance notwithstanding the slowdown in the economy and continued fierce competition from the multinationals and others in the industry. During the year under review the turnover recorded was the highest-ever in the history of the Company at Rs.1154.91 Crores as compared to Rs. 1090.24 Crores in the previous year, an increase of 5.93%. The overall lubricant industry sales volumes remained stagnant due to use of advanced engine design and long drain lubes, thereby increasing competition for greater market share. On the other hand, cost of inputs continued to rise during the year due to sharp rise of crude oil prices in the international markets, which led to greater pressure on the margins. Notwithstanding the adverse factors, the Company achieved a Profit Before Tax of Rs. 103.76 Crores as compared to Rs. 94.20 Crores in the preceding year. The increase in turnover

and profit could be possible through adoption of appropriate business strategy, judicious changes in product mix, effective cost control measures and efficient use of resources.

The brand equity of the Company's products in the industry has withstood the test of time and is expected to aid the Company in performing better in the coming years. The efforts of brand building primarily through promotional activity targeted at mechanics and fleet owners, has helped the Company to create a 'niche' for its products even in a turbulent business environment. Further continued focus on the premium segment and efficient procurement strategies also helped the Company to post such results. The 'bazaar' segment had also been the major marketing focus during the year which your Company addressed through specially designed campaigns. Your Company continued to pursue its campaigns in electronic media for both Diesel Engine Oil and Petrol Engine Oil segments. This was supplemented by realignment of distribution networks, providing customized solution to particular business segments, various strategic alliances with leading Original Equipment Manufactures (OEM), efforts in maintaining direct contacts with customers and elaborate field level activity.

The Company's Plants at Silvassa, Turbhe, Oragadam and Ramkristapur continue to be accredited under ISO 9001:2008 quality standards. The Silvassa and Oragadam Plants had also obtained accreditation under ISO 14001:2004 for environmental standards. The activities carried out by the Company's accredited R&D Centers have been successful in upgrading product formulation and the process of absorption of latest technology in the industry.

The Company's products primarily marketed under the 'VEEDOL' brand name are well established and accepted in the industry for their quality and range. The products manufactured under the technical collaboration agreement with JX Nippon Oil & Energy Corporation (formerly Nippon Oil Corporation) and marketed under the 'ENEOS' brand name have established themselves in select segments.

JOINT VENTURE WITH JXNOE

The Company is having a technical collaboration with JX Nippon Oil & Energy Corporation, Japan, (JXNOE)

for lubricants manufactured and marketed under licence from JXNOE under the Brand Name ENEOS. In view of the expanding lubricants market in India and consolidation of Japanese automobile manufacturers, JXNOE had expressed their intention to establish a joint-venture with Tide Water Oil Co. (India) Ltd. for marketing lubricants in India. In this regard, the Company had entered into a Memorandum of Understanding, whereunder, it had been agreed to form a Joint Venture Company in India for carrying out the business of licenced products. In terms of such understanding the existing business under the collaboration agreement will stand transferred to the proposed Joint Venture Company. The Joint Venture will be on 50:50 basis with equal equity participation and proportionate profit sharing. This arrangement has been sanctioned by the shareholders vide Postal Ballot resolution dated 3rd April, 2014.

BRAND 'VEEDOL'

With the acquisition of Veedol International Limited, the Company got the global rights to a wide portfolio of registered trademarks for the master brand 'VEEDOL' as well as its associate product sub-brands and iconic logos. This has opened up opportunities for export and sale of lubricants under the 'VEEDOL' brand to various geographies around the world. Accordingly, the Company has initiated steps for marketing its products in Asia, Europe and parts of North America.

MANAGEMENT DISCUSSION & ANALYSIS REPORT

Industry Structure & Development

The year 2013-14 witnessed a challenging business environment due to the twin effects of slower GDP growth and relatively high inflation. The Automobile Industry also passed through a very lean phase. Though the Passenger Vehicles and Two Wheelers sales recorded a modest increase, the Commercial Vehicles segment posted a negative growth. It had its consequential effects on the lubricant industry as well. The demand conditions in the lubricant industry, including the OEM sales remained quite subdued. In spite of these constraints, your Company has been able to register positive growth in revenues, due to its holistic approach towards dynamic pricing decisions and strong marketing network. The Company with its well diversified basket of products, strong brand recognition and wide distribution network is well equipped to perform steadily in the coming years. Further, acquisition of Veedol International Limited bestowed competitive edge unfolding promising opportunities globally.

Opportunities & Threat

As in the recent past there has been a growth in personal mobility through two-wheelers and four-wheelers, which is expected to stimulate the demand growth for high quality lubricants thereby having positive impact on the overall lubricants industry. The Company has a wide range of excellent products in different segments under its umbrella brand 'VEEDOL'. This is supported by an elaborate and extensive network of dedicated distributors, dealers and consignment depots across the country.

Though the automotive/industrial oils and automotive/industrial greases marketed under the 'VEEDOL' brand name are well established in the market, the Company's various other sub-brands such as Prima, Turbo and Take Off have also been able to create a goodwill in the market for their quality.

The various Loyalty Programmes with the dealers and the retailers have strengthened the marketing and distribution network of the Company.

However, with the advent of international players, the competition is likely to remain intense in the foreseeable future. Volatility in commodity prices is one of the most material risks. An adverse foreign exchange situation and high inflation could also put pressure on margins.

Segment Wise Performance

The Company is a single segment company as mentioned in Note 22.13 of the Accounts.

Outlook

In spite of the overall financial and political turmoil during the last year, the Indian Economy is expected to grow at a higher rate in the ensuing year. The automotive and lubricant industry is also envisaged to improve specially in commercial vehicle segment. The Company will continue to focus on its core strategies and line of business besides leveraging other opportunities to extend the distribution base and network for increasing its market share. Your Company now also has the opportunity to explore global opportunities with the establishment of multiple subsidiaries in foreign countries.

Risks & Concerns

Apart from normal risks applicable to an industrial undertaking, the Company does not foresee any serious area of concern.

Internal Control System

The Company has proper and adequate system of internal control.

Financial Performance

The details of financial performance of the Company are appearing in the Balance Sheet and the Profit & Loss Account for the year. During the year, the profit has increased by 10.15%.

Human Resources

During the year employer / employee relationships remained cordial.
