#### General notes

#### Description of the most important activities of the entity

The activities of Veedol International B.V. consists primarily of trading oil to the fullest extent of the term.

#### Going concern

#### Disclosure of going concern

The management is aware of the fact that, due to losses in the start-up phase of the company, the shareholders equity has decreased to a negative amount of  $\in$  2.845.435. This could raise concerns about the ability of the company to meet the obligations and to continue the activities. The management is positive about the future opportunities, and the company is supported by the shareholders through the guarantees that they provide. Given the possibilities the management observes, together with the support of the shareholders, the management feels confident that there it is justified to report the financial statements under a going concern basis.

#### Description of the exemption of consolidation

The company owns a 100%-participation in Veedol Deutschland GmbH, located in Hamburg (Germany).

The financial statements of the company are not consolidated in accordance to article 407 lid 2a Titel 9 BW2.

#### **Estimates**

#### Disclosure of estimates

When preparing the financial statements, the directors, according to the general principles, make several estimates and assumptions that help determine the amounts in the financial statements. The actual results may deviate from the estimates made.

#### General accounting principles

#### Foreign currency translation

#### Foreign currency translation

Items included in the financial statements of Veedol International B.V. are valued with due regard for the currency in the economic environment in which the corporation carries out most of its activities (the functional currency). The financial statements are denominated in euros; this is both the functional currency and presentation currency of Veedol International B.V.

#### Foreign currency translation for the balance sheet

Transactions in foreign currencies are stated in the financial statements at the exchange rate of the functional currency on the transaction date. Monetary assets and liabilities in foreign currencies are converted to the closing rate of the functional currency on the balance sheet date. The translation differences resulting from settlement and conversion are credited or charged to the income statement.

# GOVERS

#### Veedol International B.V. Amsterdam

#### Accounting policies for the balance sheet

#### Financial assets

Participations in non-consolidated entities are valued at net asset value.

#### **Inventories**

Finished goods are stated at the lower cost, determined between the actual cost or lower net realizable value. All damaged of substandard materials and obsolete, redundant or slow moving inventories are written down to their estimated net realisable values.

#### Receivables

Receivables are recorded at fair value and then valued at amortised cost, net of allowances for doubtful accounts, determined individually. On initial recognition the fair value and the amortised cost equal the face value.

#### Cash and cash equivalents

Unless otherwise noted, the liquid assets are, available for disposal by the company or group.

#### **Current liabilities**

On initial recognition current liabilities are recognised at fair value. After initial recognition current liabilities are recognised at the amortised cost price, being the amount received taking into account premiums or discounts and minus transaction costs. This is usually the nominal value.

#### Accounting policies for the income statement

#### Accounting principles for determining the result

The result for the year is the difference between net turnover and all related costs. The costs are determined according to the stated accounting policies.

Profits are realised in the year when the corresponding turnover is realised. Losses are recognised for the year in which it will be reasonable to estimate their existence.

#### Revenue recognition

Net turnover represents amounts invoiced for goods and services supplied during the financial year, net of discounts and value added taxes.

#### Result after tax

Corporate tax is calculated at the applicable rate on the result for the financial year, taking into account permanent differences between profits calculated according to the financial statements and profits calculated for taxation purposes.
